

Little Nutshell Pincushion

Very simple and easy to make. It took me only 40 min to make it.

All you need is a little sockyarn scrap approx. 2 g, a nutshell, some fiber for stuffing, a needle for sewing and a 2 mm crochet hook.

I crocheted a small rectangle entirely with single crochets (UK/Australia: double crochets), a little bit bigger than the shell and left a long tail for sewing around. Then I pulled the rectangle together and stuffed it. Finally I sewed in the end and put this little cushion into the shell.

It's lovely little last minute gift for a crafter.

Enjoy!
